

**College of Engineering and Computer Science
Department of Computer Science and Engineering**

Application for Admission to a Certificate Program

Personal Information

Last Name	First Name	MI	UID #
Street Address		City/State/Zip code	Area Code/Telephone Number

Education – Please list all colleges and universities, including Wright State University, that you have attended:

College/University	City/State	Inclusive Dates	Major	Degree Date	GPA

Related Work Experience: Particularly experience relating to the Certificate Program to which you are applying.

Please indicate which program you intend to pursue (Check only one). The Certificate Programs offered are:

- Graduate Certificate Program in Database Management and Design (GCP1)
- Graduate Certificate Program in Software Engineering (GCP2)
- Graduate Certificate Program in Software Management (GCP3)
- Undergraduate Certificate Program in Contemporary Programming (UCP4)

Please indicate how you meet the prerequisites for admission to the certificate in question:

(add additional pages if necessary)

If you are requesting a waiver of any course based on work experience (for academic work, see below), please provide justification below, including additional course work you propose to substitute for the waived course. (CS 600 is one of the likely courses that may be waived under appropriate circumstances. **At most, one course may be waived.**)

If you are requesting a waiver of any of these courses based on similar course work taken within the last five years at another institution, please provide details below and attach transcript. **At most, one course may be waived.**

If you are requesting substitution of a course taken within the last five years at Wright State University for one of the required courses, please provide justification below.

Admission to a graduate certificate program also requires that you be admitted to non-degree Graduate status in the School of Graduate Studies. Students must meet all standards, rules and regulations of the School of Graduate Studies.

Admission to the undergraduate certificate requires you to file a "Non-degree Registration" with the Registrar's office. Students must meet all standards, rules and regulations for non-degree undergraduate admission.

Under special circumstances a degree-seeking student may be approved for admission to a Certificate Program. Contact the Computer Science and Engineering department for admission consideration if you are in a degree-seeking status.
