- If every professor was as wonderful as Scott Thomas, engineering would be significantly less daunting. He made me remember why I love engineering. He was such a positive person and he made each week brighter. His class was difficult but manageable because he made it so. I wish every professor cared as much as this man. I would recommend him to anyone who would listen to me. I can't wait to take more of his classes. He is the perfect example of what a professor should be.
- No, he's amazing.
