10	5	

Unannounced quizzes (10%) will be given in the lab to test your preparation and understanding of lab assignments.

Section	Lab Time
5	2:10-4 Tue
6	12:15-2:05 Wed
7	6-7:50 Wed

Everyone is required to attend weekly 2-hour Labs in Room 339, Russ Center (RC). You will have 24-hour ID-card access to 339 RC to work on your own. Both Theory and practical Laboratory experience are important. You must attain a passing grade in Laboratory to pass this course.

For each lab (except Lab 1), you need to turn in your prelab answers two days (excluding weekends) before your scheduled lab section for grading. You may turn in the prelab answers either in person to the lab instructor or simply slide them under the door of RC339A (the small office at the left hand side right after you enter the lab). For Lab 1, bring your prelab answers to your scheduled lab section for grading.

The lab instructor, his office, office hours, and email address are as follows.

- Mr. Bhavik Contractor
- Office: RC 339A (inside the lab)
- Office Hours: to be arranged
- Email: contractor.2@wright.edu
